To Whom it May Concern:

**RE: Mayor's Endorsement**

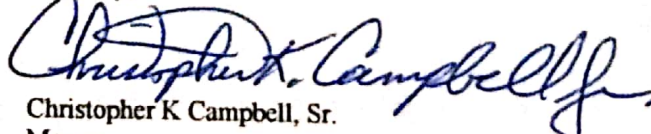

During our May 2001 trip to the Black Heritage Festival in Badagry, Nigeria, the members of the National Conference of Black Mayors delegation had the privilege and honor to interact with a private security company known as "Corporate Guards". They are a graciously trained, educated, well-mannered and highly disciplined security service. They are uniformed and exhibit a superior level of human relation skills and professionalism. During my week in Lagos State Nigeria, Corporate Guards provided security for all of our travel and events.

On at least two occasions, I had the opportunity to watch the Corporate Guards exercise crowd control during the festival events. I watched in amazement as too how quietly and smoothly they were able to move the crowds back without raising their voices or use physical contact with the people.

I would like to personally recommend them for any events or planned VIP visits to Nigeria or anywhere in the world. To me, they represent the future of security and will set the standards.

For additional information, please feel free to contact me at the bottom address and telephone number.

Sincerely,

  
Christopher K Campbell, Sr.  
Mayor
